Schools Monitoring & Reporting Tool S.M.A.R.T. 2.0

SMART is a comprehensive tool designed and developed by Futuristic Software Consultancy. SAMRT is a result of close and intensive study done by our experienced business analysts along with the valuable inputs from veteran academicians to form a abstract system which is a compact, fast, secure, robust and reliable system to cater needs of all schools (Day Schools , Day Boarders , Hostlers.)

SMART ADVANTAGE

SMART has been designed keeping in mind the distinguished needs of every educational institute. Basic ideology driving the design of the system was to enable the users focus on data and its usage rather than maintaining and compiling the data. SMART takes care of all your school activities starting from school admissions to issuing character certificates. SMART takes care of all your schools needs, be it daily, weekly, monthly or even annual processes. SMART can maintain the data of your employees, salaries, periodic increments and leaves too. SMART has been designed in easy to implement and use modules
